

CHEN SINGH

SOFTWARE DEVELOPER · Java · Spring Boot · REST APIs · MySQL · React

Karachi, Pakistan | chensinghsodho@gmail.com | +92 331 8357043 | linkedin.com/in/chen-singh-b78257312 | github.com/chen-singh

PROFESSIONAL SUMMARY

Software Developer with hands-on experience developing web applications and RESTful services using Java, Spring Boot, Spring MVC, React, JavaScript, and MySQL. Strong foundation in object-oriented programming, SQL, MVC architecture, application debugging, and relational database development. Experienced in building maintainable and scalable applications, implementing CRUD functionality, and collaborating in Git-based development environments. Fast learner with a strong passion for software development, problem-solving, and learning new technologies.

TECHNICAL SKILLS

Programming Languages: Java, SQL, JavaScript

Security: Spring Security, JWT Authentication

Frontend: HTML, CSS, JavaScript, React

Tools: Git, Maven, IntelliJ IDEA, Eclipse, VS Code, Postman

Backend: Java, Spring Boot, Spring MVC, Spring Security, RESTful APIs, JPA/Hibernate

Java Technologies: Spring Data JPA, Hibernate, OOP, Collections Framework, Exception Handling, Multithreading

Databases: MySQL, SQL, Relational Database Design

Concepts: MVC Architecture, CRUD Operations, Problem Solving

PROFESSIONAL EXPERIENCE

Java Full Stack Intern — 10Pearls Pakistan, Karachi, Pakistan

Dec 2025 – Feb 2026

- Designed and developed backend services using Java and Spring Boot, supporting core application modules following layered MVC architecture.
- Built and consumed RESTful APIs enabling seamless frontend-backend data exchange across multiple endpoints.
- Designed and optimized MySQL database schemas and queries to support reliable data storage and retrieval.
- Developed responsive, component-based user interfaces using React, HTML, CSS, and JavaScript.
- Applied OOP and MVC principles to structure maintainable, scalable Java applications.
- Collaborated with a development team using Git for version control, branching, and code reviews.

Core Java Intern — Gexton Education, Hyderabad, Pakistan

Jun 2025 – Aug 2025

- Strengthened Core Java and OOP skills by building multiple console and desktop-based practice applications.
- Implemented data structures using the Java Collections Framework (ArrayList, HashMap, etc.) to optimize data handling.
- Built robust exception handling and file I/O functionality, improving application stability and reliability.
- Applied multithreading concepts to implement concurrent task execution in sample Java programs.
- Debugged and resolved application issues, improving code functionality and reducing runtime errors.
- Used Eclipse and IntelliJ IDEA for iterative development, testing, and debugging workflows.

PROJECTS

Login & Registration Web Application — Java, Spring MVC, SQL, HTML, CSS

- Built a secure login and registration system implementing user authentication, input validation, and session management using Spring MVC.
- Designed a relational database schema for persistent user-data storage and retrieval.
- Structured the application using MVC architecture to enforce separation of concerns across controller, service, and data layers.

Contact Management System — Java, Spring Boot, React, SQL

- Developed a full-stack contact management application supporting complete CRUD operations for contact records.
- Integrated Spring Boot REST APIs with a React frontend for real-time data interaction.

- Implemented an SQL-based persistence layer with optimized queries for fast contact retrieval.
- Built a search feature enabling users to filter and query contacts by name, phone, and email, improving lookup efficiency.

EDUCATION

Bachelor of Science in Information Technology

Sindh Agriculture University, Tandojam | 2022 – 2026 | GPA: 3.86/4.00
